About Me

As an artist, actor, and full-time student, I know how to successfully balance a multitude of creative & personal endeavors. I began selling my artwork when I was in high school, creating custom calligraphy signage for teachers & family friends. As I continued to develop my artistry, I found my niche within graphic design, mixed media, & typography. I am proficient in Adobe Photoshop & InDesign, as well as Procreate & Canva. My favorite, & most recent, projects can be found on my website!
